

Professional Diver Training Center

MATH EVALUATION

This is strictly a self-evaluation and not a prerequisite for attendance. We want each potential student to be aware of some of the types of math that will be covered throughout the Commercial Diver Program. We cover these types of math in class and we offer tutoring after school by appointment. If you feel that you may need a refresher on some of the math please don't hesitate to ask.

1. $90 \times .445 =$

2. $125 + 14.7 =$

3. $\frac{125}{.445} =$

4. $\frac{75 + 33}{33} =$

5. $(2.8 - 1) \times 33 =$

6. $\frac{(125 + 14.7)}{14.7} =$

7. $2.8 \times .21 =$

8. $\frac{5(75-32)}{9} =$

9. $\frac{(9 \times 23) + 32}{9} =$
